Provenio Capital Management Inc. (“**Provenio Capital**”) is registered with the Securities and Exchange Commission as an investment adviser.

Brokerage and investment advisory services and fees differ and it is important for you to understand the differences. ### WHAT INVESTMENT SERVICES AND ADVICE CAN YOU PROVIDE ME?

We offer investment management services to retail investors. We primarily manage the use of alternative investments through private funds and third party separate account managers which include identifying, evaluating, screening, monitoring and conducting due diligence of investment managers. The minimum initial account value is determined on a case-by-case basis. We also offer financial planning services, from broad planning to custom planning focused on specific areas requested to you.

We offer non-discretionary services, meaning that we will discuss our investment recommendations with you, but you will make the ultimate decisions whether to make the investment. We also offer limited discretionary authority over traditional investments in brokerage accounts we manage where after we discuss our investment recommendations with you, we will determine when and what price to buy and sell the recommended investments on your behalf.

As part of the standard services we provide, we offer account reviews on a quarterly basis and we will generally work with you to update your financial plan on an annual basis.

For more information regarding all of our services, please refer to Items 4, 7 and 13 of our [Part 2 Brochure](#).

### WHAT FEES WILL I PAY?

We charge advisory fees for investment management services that depend on how much money you have invested through us. The annual fees are based on a percentage of the assets under management and range from .20% to 1%. Fees are charged quarterly in arrears approximately 5 to 7 weeks post quarter end. We charge a flat fee, typically between \$5,000 and \$100,000 for our financial planning services depending on the level and scope of services with 50% of the total due at the beginning of our relationship, and the remaining 50% due upon presentation of the project. From time to time, we may receive a performance-based fee instead of an asset-based management fee related to certain investments we recommend.

You may be charged additional fees and/or expenses by third parties that include, but are not limited to, custodial fees, brokerage fees, transaction fees, and any third-party money manager fees.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying. For more information regarding our fees and costs, please refer to Items 5 and 12 of our [Part 2 Brochure](#).

**HELP ME UNDERSTAND HOW THESE FEES AND COSTS MIGHT AFFECT MY INVESTMENTS. IF I GIVE YOU \$10,000 TO INVEST, HOW MUCH WILL GO TO FEES AND COSTS, AND HOW MUCH WILL BE INVESTED FOR ME?**

**WHAT ARE YOUR LEGAL OBLIGATIONS TO ME WHEN ACTING AS MY INVESTMENT ADVISER? HOW ELSE DOES YOUR FIRM MAKE MONEY AND WHAT CONFLICTS OF INTEREST DO YOU HAVE?**

*When we act as your investment adviser*, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what that means:

- We have many clients, which means that our financial professionals may have a conflict in allocating time and investments to different clients. To address this conflict, we have policies and procedures in place to make sure that you are treated fairly among other clients.
- We may recommend that you invest in a company in which one or more of our employees and/or clients have an ownership interest. For those investments, we will confirm any investment recommendations are in your best interest.
- We may enter into revenue sharing arrangements with other advisers for client referrals. In those situations, the nature of the relationship is disclosed to prospective clients at the time of the referral.
- An adviser to a private fund may offer the incentive to Provenio Capital for recommending their fund to our clients. We will always seek to negotiate any incentives so that they directly benefit you, such as through improved investment terms or a rebate back to you.

For additional information and conflicts, please refer to Item 10 of our [Part 2 Brochure](#).
